PROFESSIONAL SUMMARY

I'm a Computer Science undergraduate and Founder of CodeArch, experienced in full-stack, mobile, and custom software development. Skilled in APIs, authentication, serverless systems, ML models and databases. Exploring blockchain, smart contracts, DApps, and microservices architectures. Combines engineering with strong UI/UX and digital content creation to build efficient, user-focused solutions.

TECHNICAL SKILLS

- Programming Languages: C, C++, C#, JavaScript, TypeScript, PHP, Python.
 - Frameworks & Technologies: Next.js, Nest.js, React, Laravel, Flutter, .NET, Node.js, Express.js.
 - Databases: MongoDB, MySQL, SQL Server, Firebase, Supabase.
 - Development Skills: REST APIs, JWT Authentication, OOP, Data Structures & Algorithms, MVC, Serverless Architecture, CI/CD, Real-Time Data Processing, MVP Productions.
-

PROJECTS

Ticket Booking WebApp - Next.js Serverless

- Built a full-stack serverless ticket booking web app using Next.js serverless architecture.
- Implemented event listings, seat selection, secure authentication, payments, and booking confirmation.
- Designed scalable API routes and a modular UI with a modern toolchain.

FindWork Web Platform - Next.js Serverless

- Developed a service-matching platform with serverless API routes and account types.
- Implemented JWT authentication, dashboards, and category-based service browsing.
- Connected to MongoDB Atlas and deployed via CI/CD on Vercel.

FPS Game - Unity + C#

- Developed a service-matching platform with serverless API routes and account types.
- Implemented JWT authentication, dashboards, and category-based service browsing.
- Connected to MongoDB Atlas and deployed via CI/CD on Vercel.

User Authentication Model - MLP Model in MATLAB

- Developed a service-matching platform with serverless API routes and account types.
- Implemented JWT authentication, dashboards, and category-based service browsing.
- Connected to MongoDB Atlas and deployed via CI/CD on Vercel.

Sensor Management System - Laravel + React

- Developed a service-matching platform with serverless API routes and account types.
- Implemented JWT authentication, dashboards, and category-based service browsing.
- Connected to MongoDB Atlas and deployed via CI/CD on Vercel.

EDUCATION

BSc (Hons) in Computer Science — Plymouth University, UK **Oct 2023 - Dec 2026**

Coursework includes software engineering, algorithms, data structures, operating systems, networking, and full-stack development.

Certificate in Computer Science — NIBM Campus **Mar 2023 - Sep 2023**

Completed foundational training in programming, systems design, and database concepts.

GCE Advanced Level (Physical Science Stream) **Mar 2023 - Sep 2020**

- Physics:- A
- Chemistry:- B
- Combined Mathematics:- C

GCE Ordinary Level **Dec 2019**

Achieved 9 A Passes in all subjects.

CERTIFICATIONS

AI/ML Engineer – Stage 1 — SLIIT (Issued Oct 2025)

Skills: Artificial Intelligence, Machine Learning, Deep Learning, Engineering

Spring Boot 3 Essential Training — LinkedIn Learning (Issued Jun 2025)

Skills: Spring Boot, Spring Framework, Java Development

Learning Next.js — LinkedIn Learning (Issued Sep 2024)

Skills: Web Development, Front-End Development, Next.js

LinkedIn Certified Learning C++ — LinkedIn Learning (Issued Nov 2024)

Skills: C++ Programming, Algorithm Building , Object-Oriented Programming

React: Using TypeScript — LinkedIn Learning (Issued Sep 2024)

Skills: TypeScript, React.js, Front-End Development

LEADERSHIP, VOLUNTEERING & ACHIEVEMENTS

- Graphic Designer – IEEE StudPro (2025–2026)
- Designer - IEEE Student Branch of NSBM (2025-2026)
- Creative Content Team Lead – IEEE Computer Society of NSBM (2025–2026)
- Marketing Vice Chair – AIESEC in NSBM (2024–2025)
- Development & Design Volunteer – IEEE SB NSBM (2024–2025)
- Design Volunteer – NSBM Media Club (2024–2025)
- IEEE Xtreme 18.0: Ranked 33rd Nationally
- Hackathon Participant
- Mentor for Juniors
- Freelance Graphic Designer & Video Editor
